Thirty years ago the woolen industries were nearly all located east of the Alleghenies, but at the present true, they are scattered throughout the entire country. The total number of mills is 2.782, and the sets of cards 8.419. Pennsylvania takes the lead in the number of mills, having 471; but Massachusetts, which has 182 mills, has 1.418 sets of cards, being a triffe more than is credited to that State. New York has 248 mills and 834 sets of cards.
